## SELECTMEN'S REPORT

January 31, 1960.

In accordance with a vote of the Town in 1959, the Selectmen appointed a new Road Commissioner. The success of this change is self evident. We wish to thank Richard Cline for his spirit of cooperation and cheerfulness under any and all conditions, and his ability to organize his crew and efficiently execute his work throughout the Year.

The Firm of Dale Carruthers was hired to make a sewerage survey and maps for the Town. This work has been completed and is in accord with State requirements.

Although inclement weather prohibited the completion of work on the skating rink and baseball field, the major portion of the work has been done in both areas.

The Town office has been modernized this year to increase the efficiency of work there, and also to give the Town a business area it can be proud of. Fireproof files are on order to protect the vital records and card systems pertinent to valuations, assessments and State records.

The land on North Elm Street was not purchased as a previous option and had been taken by another party. Also, the proposed traffic light at the intersection of Main and Elm Streets could not be installed as Main Street is a state highway (Route 115) and a light there is subject to the approval of the State Highway Commission. A traffic survey was made and the proposal was turned down.

Curbing has been purchased for Center Street and West Elm Street. It will be placed after the frost is out of the ground. We feel a program for curbing is in order whereby a specified amount can be purchased and set each year.

Town operated gasoline pumps were installed for the benefit of the Highway, Fire, Police and School Departments. This has given us a saving of approximately

6 cents per gallon. A substantial amount when totaled at the end of the year.

We are particularly pleased with the efficiency of our Fire Department under the able direction of Ernest Winslow. This past Year our total fire loss was less than \$500. This is a near record for a Town the size of Yarmouth.

An Insurance Committee was appointed and many benefits have been realized from it. More complete coverage of Town property and a comprehensive study has been made of our insurance requirements.

Martin Nappi was appointed Harbormaster. This position was necessitated due to the decrease in the size of our harbor and increased popularity of boating.

We extend our sincere thanks to the girls in the office, and to all other Department Heads for their exceptionally close cooperation throughout the Year.

During the past few years our Town has grown at an exceedingly rapid pace. Yarmouth is no longer a small rural village but one of the fastest growing suburban communities in Southern Maine.

The demand for services from your Officials has increased proportionately. The Town is rapidly reaching the point whereby the present system of "part-time" Selectmen is adversely affecting the efficient operation of your local government. Although it is not our intention to recommend at this time, we do feel it our duty to acquaint the Townspeople with the fact that our system of government has not kept pace with the growth of the Town.

Respectfully submitted,

OAKLEY C. CURTIS,  
ROBERT R. MORRILL,  
J. WARREN RAYNES,

*Selectmen.*

Total Raised by Taxation	\$ 420,220.91
-----------------------------	---------------

The firm of Cole, Laver and Trumble, hired by the Town in 1958, completed their job of re-valuation. Although there were several questions from some taxpayers, the Board of Assessors feel that an unbiased and efficient job was done.

Please bear in mind that the Assessors will be in session at the Town Office on the first three days of April to hear any complaints. Unless you present a true and perfect list of your taxable property (both real and personal) either in person or in writing, at this time, you are barred from appealing your valuation for that year

All map reference numbers refer to assessors maps made by Wright & Pierce for the Town of Yarmouth, dated April 1, 1958 and 1959.

Urban maps numbered U-1 to U-19 incl.

Rural maps R. No. 1 to R-5 incl.

Island maps No. I-1 to I-14 incl.

Said maps are on file in the town office.

Respectfully submitted,

OAKLEY C. CURTIS

ROBERT R. MORRILL

J. WARREN RAYNES

*Board of Assessors.*

## OVERSEER'S REPORT

The Overseers wish to thank Mrs. Isabelle Campbell and Ann McKay for their generous assistance during the past year. Also we wish to thank the Service Clubs in the Town for helping to bring a little happiness to some of our less fortunate neighbors during the holiday season.

## YARMOUTH FIRE DEPARTMENT

To the Citizens of Yarmouth:

In 1959 there were 50 box alarms, 31 still alarms and 27 calls for oxygen. These call were all answered promptly and, as is pointed out by the insurance loss, which was less than \$500.00 quite effectively.

You, the Citizens of Yarmouth are responsible for the efficiency of your fire department. It is by your cooperation and generous support that we have been able to purchase the equipment necessary for a good department.

The members of the Yarmouth Fire Department hold practice meetings at least twice a month and have also had twenty or more hours of instruction on care and operation of equipment by certified state instructors. At the present time they are receiving instructions on fighting forest fires under the State Forestry Department.

Since 1952 we have been working toward a reduction in insurance rates for Yarmouth. Through the fine cooperation of the Yarmouth Water District with their new wells, storage tanks and extended water mains, the purchase of new fire equipment as needed and the remodeling of the fire alarm system we are now a Class C town. (Fire Insurance rating only). This means an approximate 25% reduction in insurance rates.

The fire alarm system was extended from Sligo Road to Newell Road from Portland and Main Street to Route No. 1 — From Willow St. to North St.— From Smith St. to Gilman St. There is a fire alarm box at the Rowe School and an inside pull box at the Central Elementary and Junior High School. The latter are also served by an outside alarm box on Cleaves St. The alarm system was also changed to a two circuit system with equipment installed in the Merrill Memorial Library in a fireproof room. The siren at Center St. was changed to an air horn which will code the alarm. All this was done in accordance with standards set up by the National Rating Bureau.

We wish to thank the trustees of the Merrill Memorial Library for the room for the control panel, the selectmen, the police and the citizens of Yarmouth for their support and help.

A special thank you to Kent and Emma Hilton for their assistance in obtaining a new survey by the Rating Commission. It was greatly appreciated.

“ When the whistles blow, and the sirens wail,  
Pull to the right—Stop! Don’t fail.  
Don’t tie up the roads—nor the telephone lines,  
We want to help you—there’s not much time.  
Give us ten minutes—so there’ll be no delay,  
*Don’t you be the one to get in the way.”*

ERNEST WINSLOW, *Chief*  
*Yarmouth Fire Dept.*

## THE MERRILL MEMORIAL LIBRARY

The following excerpts are from the librarian's report to the trustees. These are being given so that the residents may have an idea of what the library does.

The library is open daily from 2 P. M. to 5 P. M., and from 10 A. M. to 5 P. M. on Saturday. Opening the library Saturdays for a full day attracts many and the circulation on this day is usually well over one hundred.

A new registration was begun last February and we have a total of 867 registered. There are 356 juniors (below high school level) and 511 adults. About a tenth of those registered are out-of-town or summer residents.

Library week was observed in the spring by inviting the junior high school pupils to come to the library during school hours for the purpose of instructing them in the use of the library facilities.

In the fall, the annual Children's Book Week was celebrated by a display of almost a hundred new children's books.

Books accessioned and put into circulation this year were 546. -Of these 447 were newly purchased books, 66 were gifts and 33 old books, not previously catalogued. This total may be classified as follows:

- 148 — junior fiction
- 56 — junior non-fiction
- 168 — adult fiction
- 174 — adult non-fiction

The State Library gave us a four volume set of Thomas' Register which is an index to all leading manufacturers in the country. We subscribe to 18 periodicals and we have three gift subscriptions.

Circulation statistics continue to show an increase in the use of the library. This past year well over 16,000 books were circulated.

To the Trustees of Merrill Memorial Library:

I herewith submit my report as Treasurer for the year ending December 31, 1959:

Respectfully submitted this eleventh day of January,  
1960,

E. FOSTER BISHOP,

*Treasurer.*

## REPORT OF PLANNING BOARD

During the past year the Planning Board met sixteen times to discuss future planning and to try to work out solutions for our immediate problems. We made a number of field trips to view sub-divisions and to look over land for proposed building sites.

Arthur Hodsdon was re-appointed to the Planning Board by the Selectmen for a five year term. Thomas Payson was elected Chairman and Lawrence Reinsborough, Secretary for the 1959-1960 term. Richard Boyd was elected as the Planning Board member to serve on the School Building Committee. Due to business reasons, Thomas Payson resigned as Chairman in October 1959. Frank Knight was elected to take his place.

The Zoning Ordinance, as recommended and presented by the Planning Board, was adopted by referendum ballot March 13, 1959. We feel the town has a good workable Ordinance and wish to thank all the people who attended our open meetings, made suggestions or in any contributed to the planning or adoption of the Zoning best suited for the Town of Yarmouth.

Various meetings were held with Selectmen, Building Inspector, and Board of Appeals to discuss the Zoning Ordinance and to bring out the different interpretations of it so that we might all become more familiar with its intent. Official Zoning Maps have been made and are stored at the Selectmen's Office. They may be used by the townspeople during regular office hours.

Consulted with and requested engineering firms to submit bids for the Yarmouth Sewer Survey. After having all bids evaluated by Raeburn McDonald, we recommended Dale Carruthers to the Selectmen as best qualified to make this survey. As he was working for the Yarmouth Water District at that time, it was felt that one job might tie in with the other, making the Survey less costly to the town. At the request of Mr. Carruthers, we met to discuss various

problems of the Survey which seemed to have more than one solution. The completed Survey was presented to the Selectmen at a joint meeting of the Selectmen and Planning Board, November 2, 1959. The Survey, as presented by Mr. Carruthers, was accepted as well done by both the Selectmen and Planning Board.

Consulted with the State Highway Commission as to the desirability of re-locating Route No. 115 from a point on West Main Street near the Maine Central Tracks to Portland Street near the Grand Trunk tracks. We have been advised by the Engineer of Secondary Highways that a tentative possible location has been laid out, but as far as actual construction of this section of highway is concerned, it will not be in the near future.

We met with members of the Cousins and Littlejohns Island Village Corporation to discuss the problems of the Island, especially the road situation. It was agreed that the long range plan for the Islands Corporation absorption by the town was progressing satisfactorily. We were asked to approve Wharf Road on Cousins Island, but felt more information was needed than was presented. No recommendation was made.

The School Building Committee asked us to recommend possible school sites. Five sites were discussed. Field trips were made and they were recommended according to their desirability.

On October 15, 1959, a meeting was held with the Building Inspector and local contractors to find out how the Zoning Ordinance was working and if there was anything that they felt was penalizing them or the people of Yarmouth. Those present felt they had no great problems with Zoning and knew of no changes they would recommend.

During this year, as in previous years, the Selectmen have been confronted with the problem of keeping natural waterways clear of obstructions. Placing foundations for

homes in or near these waterways creates a problem for the buyer of these homes as well as their neighbors. The Town of Yarmouth will depend on these open drains to take care of surface water for years to come. We feel that stronger legislation should be adopted to protect the buyers of these homes, as well as the property owners in the vicinity. We urge the builders to cooperate in solving this problem.

We wish to thank all who have met with us during the year. Your interest and cooperation in Town Planning is much appreciated.

Respectfully submitted,

FRANK KNIGHT, *Chairman*

THOMAS PAYSON

RICHARD BOYD

ARTHUR HODSDON

LAWRENCE REINSBOROUGH, *Sec.*

KATHERINE TINKER

W. L. GEORGE

*Associate Members.*

## REPORT OF TREE WARDEN

Two cases of Dutch Elm Disease were discovered in Yarmouth during the past year.

These trees were removed, and pruning was done within the danger area of five hundred feet from each tree.

Dormant spray was applied to Elms last spring, and a foliage spray was put on during early summer.

Feeding of elms was accomplished along the upper part of Main Street.

Several stumps, particularly bothersome to operators of highway equipment, were removed.

Records show that among towns where Dutch Elm Disease has appeared, those towns carrying on a good spraying and pruning program are generally having the fewest cases of the disease.

I recommend that our program be carried on substantially the same as last year, including feeding of more elms along Main Street where a large portion of the root systems of many trees is covered by streets, sidewalks, and buildings.

The dormant spray account should be slightly larger this year because of the desirability of spraying private trees which have been pruned in the five hundred foot buffer zones surrounding diseased trees.

Many thanks to the Yarmouth Garden Club and V. I. S. for their continued interest in protecting our trees.

Thanks also to those who have reported suspiciously brown or yellow wilting of elms. Please continue to be on the alert for such symptoms and to report them promptly.

Respectfully submitted,

FRANK A. KNIGHT.

*Tree Warden.*

## ANNUAL REPORT OF PUBLIC HEALTH NURSE YARMOUTH — 1959

At the year's end it is again appropriate to give to you an account of public health nursing services in your community for the year 1959.

The very important work of the Division of Public Health Nursing of the Maine Department of Health and Welfare is to provide public health nursing service to people in the rural areas and small towns of our state. These services include:

Health teaching of individuals and families in their homes for the prevention of illness, promotion of health and correction of defects.

Teaching nursing care of the sick and rehabilitation of the handicapped in their own homes, with medical direction from the patient's physician.

Prevention and control of communicable diseases through immunization programs, detection and follow-up of tuberculosis and venereal diseases, and health education.

Maternal and child care, including school health services and child health conferences.

Follow-up home visiting to individuals and families under care of the various State and local clinics and services—crippled children, pediatric, mental retardation, cleft palate, adolescent, cardiac, tuberculosis—to help patients and families carry out the doctor's instructions for treatment.

Working closely with physicians, hospitals, and other health and social agencies in behalf of patients and families.

Working closely with the townspeople, individually and in groups, so that the people themselves will take responsibility for developing health programs to meet their unique local health needs.

The Yarmouth Health Council has sponsored a child health conference every month. This year 43 infants and 84 preschool children were admitted to these conferences. The total attendance for the year was 269—one less than 1958. Each child is given an opportunity to be immunized and to have a physical examination. The physical examination is the most important part of a child health conference. This gives the examining physician and public health nurse and parent an opportunity to discuss any health problems that the child might have. The following number of immunizations were given this year at the conference.

Small pox	26	
Diphtheria, Whooping Cough, and Tetanus	33	6 boosters
Polio First	46	
Second	40	
Third	45	
Fourth	14	

Doctor McIntire, school physician, as completed the school physical examinations. The pupils in grades one, three, five, and seven were examined. A total of 296 were examined this year compared to 202 last year.

Again I wish to remind the parents that parent participation is an important part of the school health program, especially in the beginning grades. The parents of children in the first grade were notified of the day their child was to be examined and invited to be present. Only 17 parents attended.

The public health nurse gave 84 audiometer tests. All first grade pupils and those referred by the teachers were given this test.

Conferences are held with the teachers to assist them with their health problems and to make home visits whenever necessary.

Three immunization clinics were held in the spring. The following immunizations were done:

Smallpox	54
Diphtheria, Whooping Cough, and Tetanus	80
Polio First	17
Second	20
Third	35

The 1960 immunization program will be started soon after the new year. There are a number of children that have not received their third and fourth polio vaccine.

Your public health nurse wishes to express her appreciation to the Yarmouth health council and all individuals who have assisted with the public health program.

Respectfully submitted,

THERESA M. McNEIL, R. N.,  
*Division of Public Health Nursing.*

**REPORT OF LOCAL HEALTH OFFICER****February — 1960**

To the Citizens of Yarmouth:

Another year having rolled along, I now submit my annual report to you.

Health is a state of complete physical, mental and social well being and not merely the absence of disease or infirmity.

First of all, I want to thank most sincerely the citizens of Yarmouth, especially the very fine teachers, doctors, and all who have helped in our program.

The citizens have been very faithful in reporting diseases and other matters brought to their attention; also, the teachers in demanding a re-admission certificate after a three day absence from school. By their faithful cooperation only, can we hope to win.

We have had 187 cases of chicken pox which could have been reduced had a bit more caution been used.

I have had over 211 calls for certificates to return to school. Please remember that it is as necessary to report the cases as it is to get your certificate.

There are still many health nuisances due to the lack of sanitary zoning laws; therefore, I am unable to cope with them.

Free immunization against diphtheria, polio and whooping cough to all children under 12 years of age and vaccination against small pox is offered to the citizens in March and August.

We all should take advantage of this opportunity before an emergency arises. Otherwise, we would be unable to obtain sufficient vaccine for all, at a time most needed.

Remember:—An ounce of prevention is worth a pound of cure.

Today with the world's transportation speeded up as never before, no surveillance at port or airport is proof against possible introduction of small pox by a person in the very early stages of the disease. Since this is true, we cannot afford to neglect vaccination.

Please call my attention to your problems pertaining to Public Health in our town, and if they can be handled within my jurisdiction, they will receive prompt attention.

Health is our greatest human possession and the conservation of this human resource is of the greatest economic and social value to our town, state and country.

I am very grateful to all for the support in carrying out my duties which are numerous and tedious at times. I humbly ask your continued support for 1960.

MINNIE E. C. KNAPP,  
*Local Health Officer.*

## THE YARMOUTH HEALTH COUNCIL

The Yarmouth Health Council has had a busy year. Its membership has grown and the interest of each member has been gratifying.

### Child Health Conferences

Conducted by Dr. Barron F. McIntire and assisted by Miss Theresa M. McNeil, these monthly conferences give free physical examinations and vaccinations to babies and pre-school children. Immunization and innoculation shots are offered at a small fee. Mrs. Russell MacLeod is in charge of the program and Mrs. Oakley Curtis provides transportation.

### School Physicals and Immunization Clinics

The usual school physicals and immunization clinics were conducted by Dr. Barron F. McIntire, school physician, assisted by Miss Theresa M. McNeil, Public Health nurse. Mrs. Leonard Robinson was in charge of securing volunteers for further assistance. A detailed description will be found in Miss McNeil's annual report.

### Dental Clinic

This year the clinic ran for  $2\frac{1}{2}$  weeks. Dr. Desjardins of Lewiston was the dentist and Mrs. Warren Raynes the nurse. Treatment was as follows:

Number of children	140
Silver fillings	453
Porcelain fillings	78
Temporary fillings	11
Extractions	8

Mrs. Ian Mackay was in charge of the clinic, assisted by members of the Health Council.

### **Loan Closet**

The Loan Closet makes available to anyone in Yarmouth the free use of a variety of sick-room supplies and similar items. Mrs. Charles Marston is in charge.

### **Fluoridation**

Mrs. Allen McCue was appointed Chairman of a committee to look into the pros and cons of fluoridation of the town water. The Health Council voted to have a public meeting, at which Dr. Franklin Smith, a dentist of Portland, spoke and showed movies on the merits of fluoridation. The attendance was very poor, considering the importance of the issue.

### **Geriatrics**

In addition to our usual activities, we have broadened our interests to include Geriatrics, the study of aging people. Mrs. Ray Houghton and Mrs. Hubert Barker are in charge of the program. Volunteers from the Council call at the Sweetland Nursing Home to visit some of the patients, write letters or do errands for them. We are anxious to expand our activities and will be glad to contact any elderly person who needs such help.

Respectfully submitted,

BETTY GIBSON,  
*President.*

## REPORT OF THE ELEMENTARY SUPERVISOR

It is generally accepted among educators that class sizes of not in excess of twenty-five pupils are necessary for maximum teaching efficiency. In the primary grades it is quite essential that the number be less than that, probably not in excess of twenty.

When the Yarmouth School Department initiated the practice of making three divisions of each grade, some years ago, it was thought that class sizes would not necessitate further subdivisions of the grades until about 1964 or 1965. No longer ago than last June it was still thought that the above schedule could be followed; however, when the enrollment last September became somewhat stabilized, it was very evident that the need for four divisions in each of the lower grades would be immediate. This change has been brought about by increased migration of primary pupils. As of next September, there should be four divisions of each of the first three grades. If the sub-primary classes are placed on a two session basis, as is being considered, it will be possible to have four divisions of grade one which will reduce class sizes in that grade. It will not be possible to relieve the crowded conditions at any other level because there are no other rooms into which to expand. All available rooms will be in maximum use in September, 1960. By September, 1961, other rooms should be provided to accommodate the increased enrollments that are coming along. It seems inevitable that the system will soon need five rooms per grade at the primary level.

The results of the Stanford Achievement Tests given at all grade levels last spring show that average achievements of all grades were equal to, or better than, national averages. In some instances the Yarmouth averages exceeded national norms by as much as two years. It is gratifying to note that our scholastic achievement shows steady improvement. Two factors will guarantee continued improvement; namely, small classes, and good teachers.

During the past year the social science curriculum has been revised to comply with state recommendations. The curriculum now conforms to recommended content in all academic areas. Each of these areas is supported by up-to-date textbooks serially presented for continuity of content.

In addition to supplying textbooks and reference materials at all levels, over one thousand dollars was expended for library books. All schools will soon be equipped with adequate reading materials if this practice can be continued annually.

Several parents have shown interest in broadening the elementary curriculum to include the teaching of a foreign language. Some towns are now experimenting with such a program, but the procurement of qualified teachers and definite decisions as to course content pose major problems. The possibility of obtaining maximum value from such a course will be greatly enhanced if the upper elementary grades can be located in proximity to the new high school as is being proposed. Not only might a course in foreign language be more practical under such a plan, but also the offerings in science, physical education, home economics, and industrial arts would be greatly enriched. The availability of library facilities, which a high school must have, would also enrich the program of the upper elementary grades in all subject areas.

It is very pleasing to note the increasing interest in pupil progress being shown by parents. Each year we notice more and more parents visiting classes and seeking conferences with school personnel. We appreciate your visits and welcome the conferences. The cooperation which results from such contacts will guarantee better schools.

I wish to thank all teachers, school officials, and parents for their cooperation throughout the year.

Respectfully submitted,

HAMILTON B. GRANT,  
*Elementary Supervisor.*

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

To School Committee Members and Citizens of Yarmouth:

Through the combined effort of the Elementary Supervisor, Principals and Teachers this has been a year of progress. Working together, these people have improved both the program and the methods of instruction. As a result there is better coordination of programs at the same grade level and an improved correlation at different levels.

This has been a year of exploration for discovering the weaknesses or gaps in our system. As a result we are recommending that the services of a reading specialist, an art teacher and a school nurse be provided.

This has also been a year of study and planning. Many have participated in the task of bringing to the people the need for a public high school. Others have donated much time and effort to the study of school sites, building plans and curriculum.

All of the above mentioned projects represent many hours of work. They do point the way to a unified school program. The cooperation and interest of so many citizens virtually guarantees their goal—an outstanding school system.

### Teachers

The following teachers started teaching in Yarmouth in September, 1959:

(Mrs.) Mildred McLain, Grade 1, East Main Street.

Walter Monroe, Social Studies, Jr. High School, returned after one year's graduate work.

### Future Plans

The Engelhardt Report includes the following recommendations:

1. That a new junior-senior high school be erected for grades five through eight and nine through twelve.
2. That Portland Street School and East Main Street be abandoned at the earliest possible date.
3. That sub-primary through grade four pupils be housed in the Wm. Rowe, Central Elementary and Jr. High School buildings.
4. That provision be made at the Jr. High School for a library, craft room, and audio-visual room.
5. That ultimately Yarmouth should have a second elementary school to replace West Main Street, Central Elementary and Jr. High School buildings.

### Budget

The major increase in the 1960 budget is in the amount for teachers' salaries. Last year your Committee adopted a salary schedule which places Yarmouth in a position to compete for the services of experienced and well trained teachers. This should pay dividends in improved instruction for your school children.

Listed as separate articles and sponsored by the School Department are articles for improving the grounds at the Wm. Rowe School and providing sprinkler systems for the Central Elementary and Jr. High School buildings. These projects should be supported.

With your continued interest and cooperation we look forward to another year of progress for the Yarmouth school system.

Respectfully submitted,

JAMES B. MORRISON, JR.

*Superintendent of Schools.*

## REPORT OF THE CHIEF OF POLICE

### For the Fiscal Year 1959

#### Board of Selectmen:

Since May 17, 1958, until February 6, 1960, the mileage now on the Police Wagon is 30,266 miles. There has not been quite as much crime going on in town as last year. There has been an increase of seven accidents over last year. We have had less breaks, but a slight increase in malicious mischief cases. Have had more ambulance calls and have taken more boys and girls home from school.

As some of you already know, parking tickets were issued, starting on May 18th to any one leaving their cars unattended where posted.

Below is a run down on some of the happenings:

- 171 Parking tickets issued.
- 24 Warning cards (speeding & stop signs).
- 15 Defect cards.
- 37 Sick boys and girls taken home.
- 29 Ambulance calls to Doctors and hospital.
- 2 Cases Superior Court.
- 9 Cases of Breaking, Entering and Larceny.
- 9 Escapees apprehended from Pineland.
- 32 Accidents investigated.
- 3 Missing boys taken to Portland turned over to Portland Police.
- 2 Attempted Breaks.
- 2 Accidents, automobile and bikes.
- 3 Stranded citizens taken home.
- 4 Family arguments.
- 15 Complaints on dogs.
- 1 Accidental Drowning.
- 3 New tires picked up, left out at station.
- 1 Stolen car recovered.
- 1 Stolen outboard motor recovered.

- 5 Young boys apprehended on glass breaking at Rowe School.
- 4 Doors found unlocked.
- 2 Boys caught breaking street lights. Paid for them themselves.
- 2 Boys apprehended breaking glass Bay View St.
- 4 Non-residents taken to Portland line.
- 1 Arrest, Breaking, Entering and Larceny.
- 1 Arrest building fire, without a burning permit.
- 6 Death messages delivered.
- 9 Messages for other Police Departments, delivered.

#### Municipal Court or Trial Justice Cases:

- 5 Arrests—No operators license.
- 1 Arrest—Illegal possession of beer.
- 5 Arrests at four corners, noisy mufflers.
- 1 Arrest—Displaying one plate.
- 1 Arrest—Operating while under Influence.
- 2 Arrests—Same as the above, only witness.
- 1 Arrest—Passing stopped school bus.
- 1 Arrest—Malicious mischief.
- 4 Arrests—Unregistered cars.
- 1 Arrest—Intoxication.
- 1 Arrest—Peeping Tom.
- 4 Arrests—Speeding.

Starting in September, I have had a man at school crossing guide at the West Main school. Could not have anyone before that, as it was not known how much money would be available for there. Nearly every Sunday there has been someone at Center and Main Streets to supervise parking there. As the fire truck could not always get out of Center Street if there was a fire. There have been two boys at the Main Street school crossing to the Rowe School, and all I can do until this year's budget is passed is to thank them for their help. They have been a great help to me.

Starting after March Town Meeting there will be a special Policeman at Cousin's Island, which I believe is needed there since the bridge has opened the Island to motor vehicles from the mainland.

The reason why there isn't any traffic light at the four corners, as voted by the citizens at last town meeting in March, is that it had to be okayed by the State Highway Commission, who felt it was not necessary. The Main Street was taken over as a State Aid road because of it being used by construction trucks on the new highway.

I could make this report longer, but I believe that I have given you a report that should give you an idea of what has been going on.

I wish to thank every one for their cooperation.

Respectfully submitted,

LESTER E. GRAHAM,

*Chief of Police.*

## REPORT OF THE YARMOUTH OFFICE OF CIVIL DEFENSE AND PUBLIC SAFETY

In March of 1959, the Selectmen appointed me to be Civil Defense Director for the Town of Yarmouth. And in spite of the many long hours I have put in, trying to give the Town an organization, the result is the same as in the past—very poor. State and Federal laws require that every municipality have a Civil Defense organization. It is the duty of *every municipal officer* to take part in that organization. The Director's job is to set up the organization—Deputy Directors and their staffs, a "Plan" for the Town, carry out the various duties that are required.

IT IS ALSO THE DUTY OF EVERY INHABITANT IN THE TOWN TO COOPERATE IN THIS ENDEAVOR. But I can practically count on the fingers of my two hands the persons in the Town of Yarmouth who do anything in this respect.

It is the responsibility of the head of every household to plan the care of his family, to know what to do under various circumstances—to know the Plan for the Town—and TO COOPERATE WITH THE CIVIL DEFENSE AND PUBLIC SAFETY ORGANIZATION IN CARRYING OUT THAT PLAN.

The organization and the plans are aimed at saving as many lives as possible under disaster conditions. They are a type of life insurance that saves life rather than paying for the loss of life. No matter how serious the disaster, there will be fewer lives lost if there is a plan to be followed and everyone cooperates rather than the panic conditions that would result from each person trying to save his own skin with no one knowing where to go or what to do.

Civil Defense and Public Safety is not a one-person job. The Director cannot do it all alone. The Staff of Deputy Directors should act as the word "Staff" implies—a support—and should be sufficiently interested in Civil Defense so that they study their duties, their section of the organization, and come up with suggestions, information and help for the Director. They need assistants to represent them at meetings and exercises that they cannot attend and to help with the necessary paper work, etc. And the town's people should help by signing up for one of the many jobs that need to be done:

Wardens—both men and women whose job it is to see that the people in their neighborhood know what to do as to home shelters, evacuation and the like.

Special Police— traffic duty and protection of property.

Assistants to the Deputies.

As of the date of writing this report, the following are the Deputy Directors:

Deputy No. 1. Everett Burnell—Transportation, engineering, utilities.

- Deputy No. 2. Robert Ayer—Fire and Police.
- Deputy No. 3. Dr. Barron F. McIntyre, Jr.—Medical services.
- Deputy No. 4. Floyd Webber—Welfare; Warden service; emergency feeding, housing, clothing; registration.
- Deputy No. 5. Charles Bartlett—Supply and administration.
- Deputy No. 6. Norman Ring—Communications.

Mrs. Whitney Lyon has been trying to get some Wardens but so far has had no more luck than anyone else has had.

My first duty after taking office was the drawing up of a new "Plan" for the town. This was done and accepted. After a Staff Meeting had been held and a few other details had been attended to, the town was again eligible for surplus property and Federal matching funds.

I have attended Civil Defense meetings in Augusta, Lewiston, Harrison and Gorham, hearing of the procedures and changes in procedures. I was envious of some of the other Directors who had the backing and assistance of their towns.

Four students at the Academy took and passed a course in Radiology. They served as observers for a while, but ten minutes a week seem to be too much time to give and no observations have been sent in for some time, so that I shall have to do that too so that the town shall not lose its eligibility again.

There have been Civil Defense "Exercises." One was an enemy attack. In that one the radiological team made observations of the fallout, but no one else had the time or inclination to help. Another which was a severe hurricane was a little better as I had the assistance of the Selectmen and Deputies 1 and 6. The emergency feeding group was ably represented by Mrs. George Cleaves as she and her assistant prepared to feed the evacuees.

There is to be another on February 17th and it remains to be seen if anyone is interested in staying alive. (By the time you read this report you will know about it).

The main purchase this year was two radios for which matching funds were available. More radios are required as the road department equipment should have one or two and there should be "walkie-talkie" sets for those who are checking on conditions to report to headquarters. Communications are of utmost importance when help is needed in a hurry.

The best payment I could receive for the year's work would be a letter or a phone call containing a sensible and practical suggestion as to some action to be taken, or the offer of assistance as Warden or some other job.

KATHERINE TINKER.

**ERNST & ERNST****Portland, Maine**

Board of Selectmen of the

Town of Yarmouth, Maine:

We have examined the financial statements of the various funds of the Town of Yarmouth, Maine, for the year ended January 31, 1959. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying balance sheet and statements of operations and unappropriated surplus present fairly the financial position of the Town of Yarmouth, Maine, at January 31, 1959, and the results of the operations of the General Fund for the year then ended, in conformity with generally accepted principles of governmental accounting applied on a basis consistent with that of the preceding year.

**ERNST & ERNST**

Portland, Maine

## ROAD COMMISSIONER'S REPORT

February 1, 1960.

### Road Construction and Improvement.

The Wharf Road on Cousins Island was relocated and completely rebuilt.

Cleaves Street was widened near the schools. The street was rebuilt and surfaced.

The work on the Old County Road was completed and the road surfaced.

A little over two miles of Granite Street was resurfaced.

The Morton Road was regraded and received a heavy coat of mulch.

A section of Mountford Road was regraded and a new culvert installed to prevent periodic washouts there.

The Junction of Portland Street and Mayberry Lane was re-defined and improved.

With the cooperation of the State Highway Safety Engineer, a traffic island was installed at the junction of Main and Portland Streets. Sidewalk curbing was also installed for a short distance on either side of Portland Street.

During the year a total of 130 tons of cold patch have been used. A road maintenance program was put into operation whereby all roads were inspected on an average of twice each week. Patching was done where necessary.

It is felt that a systemized plan for resurfacing and mulching would eliminate a great deal of this patching.

### Snow Plowing and Sanding.

After and during storms we have been able to plow main arteries before most people left for work in the mornings. One serious problem has been cars blocking roads in such a manner to necessitate a return trip by the plows. This causes an added burden to the crew as well as an increased cost for plowing.

Our new sand spreading equipment has already shown a marked saving, as we can now eliminate a man on the back of the truck. Also, our new salt spreader has saved us money due to a better distribution of salt over the roads.

It can be proven that buying our salt (approximately  $2\frac{1}{2}$  carloads per year) in carload lots we can save up to \$2400 per year. Of course, this would necessitate the erection of a salt shed near a railroad siding.

### **Sidewalks.**

Our limited funds prohibited our doing more than minor repairs this year. It is recommended that a planned program be instigated to set some curbing each year. This would facilitate installation of permanent sidewalks in the future.

### **Sewers and Drainage.**

Our sewers and storm drains are an ever present problem in their existing condition. Constant vigilance is necessary to keep them operating. Undersized lines, the added burden of new houses, and winter sand combine to overload our system.

It is gratifying to know that the sewer survey has been completed and corrective measures will be forthcoming. New installations have been held to a minimum pending our new construction program.

### **Town Dump.**

Our principal expense at the dump has been new gravel and bull-doing refuse over the brow. We can recommend no way of eliminating the necessity of this due to the topography.

### General.

A system of preventative maintenance has been instigated this year. Due to this, no major breakdowns were encountered.

It is recommended that a 3-year equipment turnover plan be put into effect. As the Town has no satisfactory garage facilities, our equipment depreciates faster.

I wish to extend my thanks to the members of the road crew who have made it possible for me to carry out these programs. They have worked willingly and without complaint under all conditions.

I also thank the Municipal Officials for their assistance and cooperation.

Respectfully submitted,

RICHARD CLINE,  
*Road Commissioner.*

### REPORT OF SCHOOL BUILDING COMMITTEE

To the Citizens of Yarmouth:

Although final plans, specifications, and cost data are not, and will not be, ready for presentation at the Annual Town Meeting, we would like to keep you informed of the present status of our progress. We take this method of reporting rather than holding a public meeting because of the many other public meetings that are being held at this time, and because we would rather have an open public meeting when our plans have been more developed and would be such as would warrant a large, representative turnout.

Land is in process of being acquired.

Site work is progressing favorably.

Engineering detail is being obtained.

Architectural layouts and plans are progressing.

We hope soon to have definite alternate proposal of construction for your consideration which will give you a chance for a positive expression of your wishes in our program of school construction.

May we at this time assure any of you who have doubts that our target date of school occupancy in September of 1961 is still well within our reach.

Respectively submitted,

ROBERT R. MORRILL, Co-Chairman  
 SUMNER J. GOFFIN, Co-Chairman  
 RICHARD BOYD  
 HAMILTON GRANT  
 NORMAN LINDQUIST  
 HERBERT ROSE  
 RALPH STEVENS

### TOWN CLERK'S REPORT

The following is the number of births, deaths and marriages recorded up to December 31, 1959. State law forbids the printing of names of births, deaths and marriages but these records are available to anyone directly interested in them.

Births,	95
Marriages,	40
Deaths,	62

Respectfully submitted,

HILDA R. THURLOW,  
*Town Clerk.*

## REPORT OF THE BUILDING INSPECTOR

To the Citizens of Yarmouth:

The town having adopted a zoning ordinance at the last regular town meeting, this is the first year that it has been necessary to obtain a building permit before any construction could be started and consequently the first year that any accurate records have been kept.

I have issued 156 permits for an estimated value of \$1,079,505.00.

This is broken down as follows:

There were 21 new houses and several remodeling jobs under construction at the time the ordinance was passed; these were valued at \$247,500.00. Since then there have been 56 permits for new homes valued at \$684,800.00; 15 permits for assessory buildings valued at \$36,900.00; and 64 permits issued for additions and alterations valued at \$110,305.00.

Realizing that it is not easy to readjust one's thinking to modern ways and to forsake long standing traditions; also, that some misunderstandings are sure to arise, I feel that most differences have been overcome with a minimum of difficulty and I want to thank all those who have been considerate of the situation and assisted to the best of their abilities.

Respectfully submitted,

GEO. A. LOMBARD,  
*Building Inspector.*

## WARRANT FOR ANNUAL TOWN MEETING

To Lester E. Graham, A Constable of the Town of Yarmouth, State of Maine:

### GREETINGS:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of the Town of Yarmouth, qualified to vote in town affairs, to meet in the Masonic Hall, in said town, Friday, the 11th day of March, A. D., 1960, at 10:00 A. M. to act on the following articles, to wit:

Article 1. To elect a moderator to preside over said meeting.

Art. 2. To ballot on all necessary town officers for the ensuing year, except moderator, and to vote on all referendum questions on the special ballot.

Referendum Question No. 1. Shall the Town of Yarmouth, Maine, seek enabling legislation from the next session of the Maine Legislature to increase the membership of the Superintending School Committee from three to five members?

Note: The polls will be open for this purpose from 10:00 A. M. to 7:00 P. M., and the officers will be elected on a single ballot provided by the town. At 7:00 P. M. the meeting will adjourn until 9:00 A. M., Saturday, March 12th, at North Yarmouth Academy.

Art. 3. To hear and act upon the report of the selectmen, assessors, overseers of the poor, treasurer, superintendent of schools, chief of fire department, also the report of any other officer or committee.

Art. 4. To see what sum of money the town will raise and appropriate for general government: (1) Selectmen,

(2) Assessors, (3) Overseers of the Poor, (4) Clerk, Collector, Accountant, (5) Treasurer, (6) Attorney, (7) Elections, (8) Departmental Expense.

Art. 5. To see what sum of money the town will raise and appropriate for protection of persons and property: (1) Police Department, (a) salary, (b) expense; (2) Fire Department, (a) salaries, (b) expense, (c) repairs and maintenance, (d) equipment; (3) Fire inspection, (4) other inspection, (5) insurance on town property, (6) workmen's compensation insurance, (7) civil defense, (a) expense, (b) equipment and supplies.

Art. 6. To see what sum of money the town will raise and appropriate for highways; (1) maintenance of town highways, (2) tarvia, (3) sidewalks, (4) snow removal and sanding, (5) state aid construction.

Art. 7. To see what sum of money shall be applied to the highways and maintenance accounts from excise tax returns.

Art. 8. To see what sum of money the town will raise and appropriate for health and sanitation: (1) health, (a) salary, (b) expense; (2) vital statistics, (3) State Bureau of Health, Sanitation, (1) sewer maintenance, (2) garbage collection, (3) town dump, (a) maintenance.

Art. 9. To see what sum of money the town will vote to raise and appropriate for water service.

Art. 10. To see what sum of money the town will vote to raise and appropriate for street lighting.

Art. 11. To see what sum of money the town will raise and appropriate for welfare: (1) Local Welfare, (2) Dependent Children.

Art. 12. To see what sum of money the town will raise and appropriate to help combat white pine blister rust.

Art. 13. To see if the town will vote to authorize its superintending school committee to issue vouchers for the payment of tuition for high school pupils attending North Yarmouth Academy at a yearly cost not to exceed \$420 per pupil, or take any action thereon.

Art. 14. To see what sum of money the town will vote to raise and appropriate for Support of Schools: Administration, Instruction, Attendance and Health Services, Pupil Transportation Services, Operation of Plant, Maintenance of Plant, Fixed Charges, Food Services, Outgoing Transfer Accounts and Professional Consultant Services.

Art. 15. To see what sum of money the town will vote to raise and appropriate for grading and landscaping at Wm. H. Rowe School.

Art. 16. To see what sum of money the town will raise and appropriate for the maintenance of the Merrill Memorial Library.

Art. 17. To see what sum of money the town will raise and appropriate for the corporate needs of the Cousins and Littlejohns Islands Village Corp. for the year 1960. The purposes for which this money will be spent, including the maintenance of roads and landings, garbage and rubbish collection and disposal, and desirable improvements to increase the comfort and attractiveness of the islands for the inhabitants, said money to be paid to the treasurer of the Cousins and Littlejohns Islands Village Corporation.

Art. 18. To see what sum of money the town will raise and appropriate for unclassified accounts: (1) Memorial Day, (2) Cemeteries, (a) care and maintenance, (3) Tree Spraying, (4) Pruning and Removing Trees, (5) Skating Rink, (a) lighting and plowing, etc., (b) drainage improvements, (6) Planning Board, (7) Advertising Resources, (8) Baseball Field Maintenance.

Art. 19. To see if the town will vote to authorize the selectmen to procure a temporary loan or loans in anticipation of taxes, for the purpose of paying obligations of the town; such loans to be paid during the current municipal year out of money raised during said current municipal year, by taxes.

Art. 20. To see what sum of money the town will raise and appropriate for interest on loans: (1) long term debt, (2) short term debt.

Art. 21. To see what sum of money the town will raise and appropriate for debt.

Art. 22. To see if the town will raise and appropriate the sum of \$100.00 to be paid to Charles E. Greely, Honorary Fire Chief.

Art. 23. To see if the town will vote to authorize the selectmen, on behalf of the town, to give assignments of the mortgages created by the tax lien certificates, also to sell and dispose of any real estate acquired by the town for non-payment of taxes or otherwise, on such terms as they deem advisable, and to execute quit-claim deeds for such property.

Art. 24. To see if the town will fix a date when taxes shall be due and payable and see if the town shall charge interest on taxes unpaid, after such date.

Art. 25. To see if the town will vote to raise and appropriate the sum of \$3,500.00 for the improvement and rebuilding of Smith St. Extension from Route 88 to Holy Cross Cemetery and the Tomb.

Art. 26. To see what sum of money the town will raise and appropriate for the purpose of a Town Garage.

Art. 27. To see what sum of money the town will raise and appropriate to repair the main road to the Northeast end of Cousins Island.

Art. 28. To see what sum of money the town will raise and appropriate for the purchase of a tractor with the

necessary equipment for general use by the Highway Department.

Art. 29. To see what sum of money the town will raise and appropriate for land purchases, architects' fees, engineering surveys, etc., to be expended by the School Building Committee.

Art. 30. To see what sum the town will raise and appropriate for the purpose of having professional appraisers continue appraisal of property values in the town for the year 1960-61.

Art. 31. To see what sum the town will raise and appropriate for the purpose of having professional engineers continue mapping the properties of the town.

Art. 32. To see if the town will vote to accept the following amendments to the Zoning Ordinance:

Amend Art. V, Sec. 2, to read as follows:

Home shop with permission to sell and all equipment and personal property left inside and out of ordinary view from the outside.

Amend Art. XVII, Sec. 12, to read as follows:

Home Shop: A shop operated by the household of the owner or occupant of the lot upon which such home shop is located, and providing, no full time employment to any other person, and with the further provision that the shop will keep no regular hours, will commit no nuisance and it will not cause interference with the normal flow of traffic and that off street parking will be available.

Amend Art. XIV, Sec. 1, as follows:

Add a Subsection 1-a. The office of Assistant Building Inspector is hereby created. His duties shall be to assist the Building Inspector when requested, also to act in his capacity when the Building Inspector is absent for a prolonged period of time and he shall be responsible to the Building Inspector.

To Change Zone 1 from Portland St. easterly along the C. N. R. Tracks as far as Zone C and making it an R. B. Zone as shown on Zoning Maps U-4 and U-7.

Art. 33. To see what sum of money the town will vote to raise and appropriate for the purchase and installation of sprinkler systems at the Central Elementary School and/or the Junior High School.

Art. 34. To see what sum of money the town will raise and appropriate for the completion of Bennett Memorial Field.

Art. 35. To see what sum of money the town will raise and appropriate for the maintenance of a town ball team.

Art. 36. To see how much money the town will raise and appropriate for the purpose of extending the sidewalk on Portland Street from the residence of Norman Lindquist to Route No. 1, a distance of approximately 1,553 feet.

Art. 37. To see if the town will vote to accept as town roads the following roads on Littlejohns Island: Nowell, Alpine, Dartmouth and that part of Crescent that is at present paved.

Art. 38. To see if the town will vote to make elective the following Town Offices immediately after the A. D. 1960 Annual Town Meeting: Road Commissioner, Accountant, Tax Collector.

Art. 39. To see if the town will raise and appropriate the sum of Four Thousands Seventy Dollars (being the professional appraised value) of lot 51 page U-12 in the Map Book, on file in the Town Office. Addition of land for the Rowe School is recommended in the Englehardt report.

Art. 40. To see if the Town of Yarmouth will vote to raise and pay the sum of \$600.00 to the Area Development Council, it being Yarmouth's due for the years 1959 and 1960.

Art. 41. To see if the town will vote to transfer the sum of \$300.00 from Surplus to the Area Development Council to pay 1959 dues. This amount was originally raised at the Annual Town Meeting (Article 36) on March 14, 1958, but through an oversight was not paid and was put in to the Surplus by the Auditor.

Art. 42. To see what sum the town will raise and appropriate to install a hydrant on Drinkwater Point 280 feet from the easterly end of Gilman Road.

Art. 43. To see what sum the town will raise and appropriate to install two hydrants on Princes Point. One at the intersection of Sunset Point Road and Princes Point Road. One at the end of Sunset Point.

Art. 44. To see what sum the town will raise and appropriate to install two hydrants on Sligo Road. One to be 350 feet north of the M. C. R. R. One to be 650 feet south of the M. C. R. R.

Art. 45. To see what sum of money the town will raise and appropriate to install a street light on Lafayette St. between the Royal River Packing Co. and Smith St.

Art. 46. To see what sum of money the town will raise and appropriate to install a street light on Pole No. 88 on Princes Point Road. Location being between the residences of Robert Snyder and Oakley Curtis.

Art. 47. To see what sum of money the town will raise and appropriate to install a street light on Pole No. 72½ on Princes Point Road. Location being between the residences of Fred Pesce and Richard Cline.

Art. 48. To see what sum of money the town will raise and appropriate to install a street light on Pole No. 115 on Princes Point.

Art. 49. To see what sum of money the town will raise and appropriate to install a street light on Pole No. 403

on Cousins Island. Location being opposite the intersection of the road leading to Littlejohns Island.

Art.50. To see what sum of money the town will raise and appropriate to install a street light on Pole No. 32 on Woodbury St.

Art. 51. To see what sum of money the town will raise and appropriate to install a hydrant on Princes Point Road near the residence of Floyd Webber.

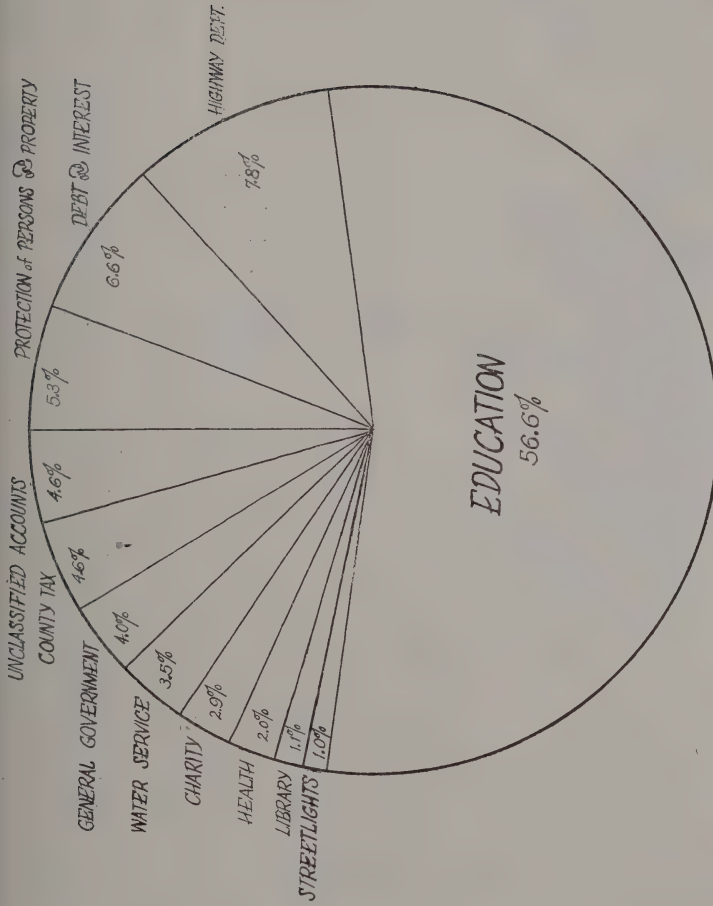

Art. 52. To see if the town will vote to pass an ordinance for the taking of clams, quahogs and mussels from the coastal waters and flats within the municipality, and determine the terms of such ordinance, as permitted by Maine law.

Art. 53. To see if the town will vote to accept a Warranty Deed from Edward G. Collins, conveying a right of way to the Town of Yarmouth from Smith St. to Royal River, as described by a map on file at the town office.

Art. 54. To see if the town will vote to accept the provisions of Chapter 90 A, Revised Statutes of the State of Maine, Section 37 Amended, providing for nomination of candidates for municipal offices by political caucus.

Given under our hands the 23rd day of February  
A. D. 1960.

STATE DEPARTMENT OF AUDIT

Augusta

May 11, 1960

Board of Selectmen

Yarmouth,  
Maine

Gentlemen:

In accordance with Chapter 90-A, Revised Statutes of 1954, an audit has been conducted of the financial records of the Town of Yarmouth for the fiscal year ended January 31, 1960.

The examination was made in accordance with generally accepted auditing standards that pertain to governmental accounting and was conducted by Auditor S. M. Emery of the State Department of Audit.

The audit analysis included such tests of the accounting records and other auditing procedures as were considered necessary in the circumstances.

The financial and statistical sections, incorporated in this report, present the results of the Town's financial operations for the period indicated.

Respectfully submitted,

MICHAEL A. NAPOLITANO,  
State Auditor

**SELECTMEN'S REPORT**

January 31, 1960

The population of Yarmouth is on a definite increase which was evident in the National Election in November. 450 new voters were registered and a total vote of 1916 at that time now makes it necessary that 191 voters be present to make a quorum for a town meeting. We sincerely urge all voters to attend and take part in planning your municipal programs. The trend of population change to the suburban areas has not by-passed Yarmouth and is being reflected in all branches of our municipal services such as administration, education, protection and the other various services which are performed by your tax dollar.

The Cousins-Littlejohns Island Village Corp. has voted to dissolve their corporation if and when the Town of Yarmouth votes to enact a building code.

There is an article in your Town Warrant for this building code.

The municipal garage was started after the revenue from tax money was sufficient. The work is about 50% complete. The building was redesigned to handle 4 school buses instead of the original 3. Expansion is possible on the west side for another bay to handle 2 more buses when necessary.

The new loader was purchased and has proven to be a great saving to the town in rental money.

Bennett Memorial Field has been graded and will be ready for seeding this spring.

A bill to increase the Superintending School Committee to 5 members has been passed by the legislature.

At a special town meeting July 29th it was voted by referendum to raise \$1,380,000. by a bond issue for a new High and Junior High School. This project is underway and progress is ahead of the anticipated schedule.

A clam warden was appointed, also a 5-man committee to work on a shellfish conservation program. This is showing results and full aid and support is being given by the Dept. of Sea & Shore Fisheries in Augusta.

A special "Thank You" to the Yarmouth Junior Chamber of Commerce for the new street signs they erected, also for their enthusiasm in town improvement.

Messrs. Milton Nixon and Allan Rand of the Yarmouth Realty Co. have deeded to the town a parcel of land on Royal River to be used for a Town Landing. This land is located at the terminus of the proposed access road to be built by the S. H. C. from Bayview St. (Parallel to Rt. 95). We thank them for their interest in this important project. Without the land the S. H. C. was doubtful if the road could be constructed.

Our Fire Department has continued to do an outstanding job in keeping our fire loss down. Our thanks to Chief Winslow and the members of the department.

To all other department heads we wish to express our sincere gratitude for their cooperation throughout the year.

Respectfully submitted,

ROBERT R. MORRILL,  
J. WARREN RAYNES,  
BUEL J. FERGUSON,  
Selectmen

**ASSESSORS' REPORT**

The mapping and valuation has been kept up to date by the firms of Cole, Layer and Trumble and Wright and Pierce Engineers.

The assessors will be in session at the town office on the first three days of April to receive declarations and hear complaints. Unless you present a true and perfect list of your taxable property (both real and personal) either in person or in writing, at this time, you are barred from appealing your valuation for that year. Watercraft are considered personal property and should be so declared.

All map reference numbers refer to assessors' maps made by Wright and Pierce for the Town of Yarmouth.

Urban maps numbered U-1 to U-19 incl.

Rural maps, R-1 to R-5 incl.

Island maps, I-1 to I-14 incl.

Respectfully submitted,

ROBERT R. MORRILL,  
J. WARREN RAYNES,  
BUEL J. FERGUSON,  
Board of Assessors

### OVERSEER'S REPORT

Nearly two ton of surplus food was distributed to Yarmouth residents throughout the past year. This additional assist makes it unnecessary for many borderline cases to ask for town aid.

Welfare costs increased somewhat. Most of this is due to the A. D. C. (aid to dependent children) program.

We wish to thank Mrs. Isabelle Campbell, also the several civic clubs and organizations in the town for their contributions in bringing extra happiness to some of our less fortunate neighbors during the holiday seasons.

### TOWN CLERK'S REPORT

The following is the number of births, deaths, and marriages recorded up to December 31, 1960. State law forbids the printing of names of births, deaths and marriages but these records are available to anyone directly interested in them.

Births	110
Marriages	52
Deaths	59

Respectfully submitted,

CLARENCE H. SEABURY,  
Town Clerk

## YARMOUTH FIRE DEPARTMENT

To the Citizens of Yarmouth:

On behalf of the members of the Yarmouth Fire Department, I wish to express our appreciation for the cooperation and support you have given us during the year.

There were 52 alarms in the year 1960 with a total fire loss of less than one thousand dollars (\$1,000.00). This is a fine record and one of which we can all be justly proud.

Preventive fire protection is being stressed all over the country. That is why we undertook home inspections last fall. Although we did not visit all the homes last year, we hope to be able to complete our inspections this spring. More than half the homes were inspected and everyone seemed glad to have the firemen call and point out any potential fire hazards.

Here are a few rules I would like to emphasize when you have a fire.

1. Give your name, address, box number and kind of fire.
2. Stay by the roadside to direct the fire equipment as they approach.
3. If you use the fire alarm box, remain at the box until the firemen arrive.

I strongly urge all citizens to give the firemen a chance to get to the scene of the fire first. If you must drive to the fire, please park your cars well off the highway so as not to obstruct traffic. Also, in phoning for information concerning an alarm, wait ten minutes after the alarm then call VICTOR 6-5922 for information. Do not call on the **Fire Phone** as this system must be open for department business.

This year a new entrance door was installed at the Center St. Hose House. Additional hose was purchased along with Indian tanks. Four-way hydrant valves and other miscellaneous equipment was also purchased.

The parking situation on Center and Main streets on Sunday mornings remains a very serious problem. Especially during the winter months the narrow streets present a dangerous bottleneck through which fire equipment and men must pass. I can only ask that each and every one of us make an extra effort to park as close to the curb as possible.

It is my hope that the people of Yarmouth will adopt the building code which is to be presented at the annual town meeting. This Code is recommended by the National Board of Fire Underwriters. It is for your protection and also your neighbors'.

Respectfully submitted,

ERNEST A. WINSLOW,  
Fire Chief

## REPORT OF THE CHIEF OF POLICE

For the Fiscal Year 1960-1961

Board of Selectmen:

Since February 6, 1960 until now, February 21, 1961 the mileage on the police wagon is 54,132 miles. It has been recommended by the Committee of Twelve that the wagon be traded this year as it will be three years old on May 17, 1961. The sum of \$1,200.00 is being recommended to trade the wagon.

Below are some of the happenings in 1960 and up to when this report was written.

### Breaks

Jan. 4, 1960—Attempted break at Yarmouth Market.

Feb. 8—Window glass broken out of section house of C. N. R. R. Flares and torpedo taken.

Feb. 14—Break discovered while out on patrol at Yarmouth Fuel Co. Safe tipped over, nothing taken, scared away.

Feb. 14—Break at Eastern Builder's. Transistor radio taken, done by same subjects.

Feb. 14—Break at White Cap. Cigarette machine pried open, \$10.00 in money taken. Done by same subjects as above.

April 30—Break at North Yarmouth Academy. Dictaphone taken. Subjects apprehended later on.

May 19—Break at Cousin's Island cottage. Nothing taken.

June 1—Attempted break at cottage at Littlejohn's Island.

June 1—Break at cottage at Littlejohn's Island. Nothing taken.

Aug. 1—Break at Hubbard Motors, Rt. 1. Car and keys taken. Subjects apprehended. Discovered while on patrol.

Aug. 1—Break at Eastern Builders. Articles taken recovered and subjects apprehended.

Aug. 4—Break at Frost Mobil, Rt. 88. Nothing taken. Subject apprehended.

### Larceny

Jan. 13, 1960—Cousin's Island. Battery, tools and garage accessories.

Mar. 18—At village—5 gallons of fuel oil.

Mar. 18—Attempted larceny, Rowe School. Supt. office door pried open. Nothing taken. Subjects later apprehended.

July 29—50 feet of Bell Hose taken outside of building.

Aug. 4—Larceny of bottles, 2 small boys apprehended.

Sept. 5—Two hub caps—Cousin's Island.

Sept. 5—1 bicycle stolen.

Oct. 20—Rt. 1—28 quarts of oil taken from outside rack at Amco.

Oct. 25—Gun taken, Granite St. house.

Nov. 3—Boat taken, Cousin's Island, recovered a few days later.

Nov. 10—Fuel pump, radiator taken from car parked in woods at White's Cove.

Feb. 17, 1961—\$40.00 in money taken at Harriman's Foodliner, which was larceny as no forced entry.

### Stolen Motor Vehicles

April 10, 1960—Stolen, Main St., keys left in car. Recovered, Yarmouth.

June 22—Stolen, Main St., ignition left unlocked. Recovered, Yarmouth.

Aug. 1—Rt. 1, Hubbard Motors. Recovered, Portland.

Aug. 19—Stolen, South St., keys in car. Recovered, Portland.

Dec. 6—Stolen, Massachusetts. No keys. Recovered, Yarmouth.

Jan. 8, 1961—Stolen, Cleaves St., keys made for car by 2 young boys. Recovered, Yarmouth.

Jan. 9—Stolen, North Road. Keys left in car. Recovered, Portland.

Jan. 16—Stolen, Main & Center St. Keys left in car. Recovered, Yarmouth.

Subjects all apprehended on the above thefts.

Jan. 22—Stolen, Homewood Inn. Recovered, Union, Pa.

I would like to caution the owners of motor vehicles to not leave their vehicle unattended. I have observed unattended vehicles left with motors going, lights on, parked around town. Please do not make it so easy for anyone to steal your vehicle.

### Miscellaneous

7 Weeks patrol at W. Main St. School. Morning, noon and P. M.

- 9 Stranded persons taken home or to Portland or Brunswick.

5 Trips to Augusta State Hospital

46 Accidents investigated.

120 About that many parking tickets issued. This is less than last year.

52 Warning cards issued.

3 Calls for oxygen.

14 Messages delivered from other Police Departments.

6 Trips to Juvenile Court in Portland.

28 Ambulance calls taken to doctor's office or to Portland hospitals.

34 Sick girls and boys taken home from school.

14 Calls on family trouble.

7 Missing girls and boys found.

4 Assist other officers at scene of accidents.

10 Business places, windows and doors found unlocked.

6 Escapees apprehended from Pineland Hospital.

Jan. 17—Picked up 8 tires left out at one of the filling stations on Rt. 1, while on patrol.

Feb. 24—Found safe unlocked and door at Eastern Builder's while on patrol.

Aug. 29—Canal National Bank alarm going. Stayed until alarm taken care of. Short circuit.

### Vandalism

June 20, 1960—House on Newell Road. Several panes of window glass broken out of unoccupied house.

July 6—Sawmill, North Road. Three boys apprehended.

July 11—Bradley House. Eight panes of glass broken.

July 12—Car went through potato patch at unused land of Catholic Cemetery. Damage over \$200.00. Subject apprehended.

July 12—Door glass broken, Newell Road. Three boys apprehended.

July 30—Several window panes broken in on unoccupied house, Granite St.

It would be a very good idea if the parents of some of the girls and boys involved in the above would give them to understand that they (the parents) are liable up to \$200.00 for damage caused by minors under the State Law on vandalism or malicious mischief.

During the summer or from June until November there has been an officer on duty at the upper and lower ends of the town for four hours a night. Which has been a great help on keeping noise, speeding and other violations down. Later on they were on only Friday, Saturday and Sunday evenings.

### Arrests

- 3 Passing stopped school bus.
- 2 No operator's license.
- 1 Throwing bottles from car.
- 3 Stop signs.
- 3. Taking motor vehicle without consent.
- 6 On juveniles which are counted as arrests.

I have put out more warning cards on violations which run up points on subject's license and are good for 3 years instead of arresting them for violations.

The courts will not always issue a warrant on a misdemeanor, unless person who sees what they claim happened will sign a warrant. Because a misdemeanor has to happen in an officer's presence in order for him to sign the warrant.

During the hurricane of 1960, there were six men besides myself on duty. One at E. Main and Rt. 88, one on each end of the village, one at Cousin's Island, one at Pleasant St. and Rt. 88 and one with me in the wagon. One person was evacuated from Prince's Point to Maine St. village. Received one call during the hurricane for a man having a shock who needed to be taken to hospital. Had Norman Lindquist ambulance take him.

There are more thing going on of lesser importance, but I believe this report ought to give you a pretty good idea of things that happened police-wise of a serious nature.

I wish to thank everyone for their cooperation.

Respectfully submitted,

LESTER E. GRAHAM,  
Chief of Police

## ROAD COMMISSIONER'S REPORT

A telephone has been installed at the town garage and all service calls for sewer troubles, road hazards, etc. should go direct to this department. Call VIctor 6-5818. If no answer, call the town office VIctor 6-5241.

We have had an active road rebuilding schedule this year. In all instances the sub base of these roads have been excavated and the required depth of gravel applied to insure a permanent base. Culverts for correct drainage have been set and particular attention has been paid to proper ditching. All of these roads have been widened. The following roads were corrected:

Smith Street Extension (Route 88—to Riverside Cemetery Tomb). The road on the northeast end of Cousins Island for a distance of one half mile. Sunset Point Road from Princes Point Road to its extreme end.

Bridge Street on Cousins Island was improved by setting a new culvert and raising the road grade through a low area near the power line right of way.

Our new loader has proven to be invaluable on these projects as well as the usual work at the dump, loading snow and stock piling sand and salt. Direct and indirect savings to the town are proving this machine to be a sound investment. Following are interesting figures of the number of hours our loader has worked on the more important jobs about town. Dump, 116; Common Roads, 80; Cemeteries, 17; Northeast Road, Cousins Island, 78; Bennett Mem. Field, 30; Curbing, 10; Bituminals, 18; Smith Street Extension, 79; Snow, 79; and Miscellaneous, 55.

We have corrected drainage problems in several areas and reconstructed several man holes. Our sewers continue to give us trouble in the usual locations. These are taken care of with a minimum of difficulty.

A pest control program has been carried on at the dump with excellent results. This takes place early each fall and it is necessary to close the dump to public use for 2-3 days at that time. A severe campaign is planned against the offenders who continue to use our dump for garbage disposal. This drive will be shared by the Selectmen, Police Dept., Health Officer and all members of the D. P. W.

Parked cars on the streets during snow removal have not been the nuisance they were last year. I wish to thank everyone for their cooperation. We still have a few offenders, but they are fast disappearing as they become aware of our problem.

All members of our department thank the voters of Yarmouth for supporting our new municipal garage. It is fast shaping up and will fill a long vacant spot in our municipal growth. We are anticipating the day of occupancy.

We are ready and willing to help all our Yarmouth residents with any problems relative to our functions. I wish to thank the Municipal Officers for their support and cooperation during the past year. Also, the members of the department who have worked willingly and without complaint under all weather conditions, sometimes 24 hours through without rest.

We trust our pride and interest in Yarmouth have contributed to your better living.

Respectfully submitted,

RICHARD C. CLINE,  
Road Commissioner

## REPORT OF LOCAL HEALTH OFFICER

To the Citizens of Yarmouth:

Once again, as your Local Health Officer, I submit my Annual Report.

It is my official duty to cooperate with the local physicians, Public and County Health Nurses, and citizens to ascertain and suppress contagious diseases and epidemics.

This can only be done by their earnest cooperation with me and I am very pleased to report this is nearly at top level and I sincerely appreciate and thank you all.

Special credit is due our Yarmouth Health Council and fine staff of teachers for their untiring efforts and I wonder if all our citizens know and realize the wonderful work they are doing and have done for the health of our town.

In each annual report I stress the existing conditions at our town dump. We are fortunate in having a place to dispose of our rubbish (not garbage) but quite a few still either cannot read, understand what they read, don't care or what is the answer? When we enter we see a sign "Dump No Garbage" but they still do. What is the answer. "The just must suffer for the unjust". We also have plenty brought in from other places. Garbage on a dump is against the law and punishable by a fine.

We have had an unusually small amount of contagious diseases for which we are thankful. Please continue to report these as we cannot control diseases without first knowing where they exist.

Remember, free immunization against diphtheria and whooping cough is offered to all children under 12 and vaccination against small pox to all citizens in March and August. Those wishing same, contact me at your earliest convenience.

Health is our greatest human possession and the conservation of this human resource is of greatest economic and social value to our country.

I feel my year has been most successful and I sincerely thank all of those whom I contacted about health menaces, and other matters, for their promptness in taking care of these and the courtesy shown me when I call their attention to same.

Again thanking you all for your past support and asking your continued support in the future.

I remain,

MINNIE E. C. KNAPP,  
Local Health Officer

## ANNUAL REPORT OF PUBLIC HEALTH NURSE YARMOUTH — 1960

Public health, in simple terms, is the sum total of the health of individuals and families living in a community. An organized program for public health is one that offers those individuals and families every possible chance of living and enjoying life, free from the handicaps of preventable disease and disability. In more formal terms, the objective of a public health program is to bring to all the people the benefits of modern medical and related sciences including the care and rehabilitation of the sick and disabled, the promotion of healthful living, and the prevention and control of disease.

A number of people are involved in the attaining of this objective. All together they make up a "health team". The public health nurse is an essential member of this team. She shares in planning and action with other workers in the fields of health, education, and welfare; with physicians, hospitals, clinics; with school personnel; with citizen groups. One of her important functions is coordination with the others involved to provide public health services to individuals, families, and community. Citizens of the community are also essential members of the health team. Alert to the health needs of their community, taking their share of responsibility to meet these needs, their contribution as health workers is indispensable to the effectiveness of the public health program. A vital, dynamic, working "health team" in the local community strengthens the public health not only of that community, but also of the State and the Nation.

Home visiting is the most important function of the public health nurse. The public health nurse spends many hours in the school and child health conferences, but it is in home visiting that she is best able to accomplish the goal of public health nursing.

The Yarmouth Health Council sponsors a child health conference every month. This past year 30 infants, 124 pre-school children were admitted. The total attendance for the conferences held was 286. The most important part of the child health conference is the physical examination the child receives.

The following number of children were immunized at the child health conferences.

Smallpox	24
Diphtheria, whooping cough, tetanus	32
Booster	37
Polio—second	6
third	42
fourth	52

The school health program was the same this year as it has been in the past. Doctor Barron McIntire, Jr., M.D. examined the pupils in the first, third, fifth, and seventh grades—a total of 240 pupils were examined. A member of the health council assisted with the physical examinations. Parent participation was very poor, parents were invited to be present, especially in the first grade, so that the parent and doctor may discuss any health problems the child might have. Let us hope that next year with the new high school which will have health room, that parent participation will be increased.

Two immunization clinics were held for school children, the following number were immunized.

Smallpox	85
Diphtheria, whooping cough, tetanus	27
Diphtheria, tetanus	143
Polio—first	1
third	1
fourth	469

The entering class and pupils referred by the teachers were given the audiometer test. One hundred twenty-one received the tests. This is done every year by the public health nurse.

The public health nurse is available to assist the teachers with their health programs, and to make home visits whenever necessary.

The public health nurse wishes to express her appreciation to the Yarmouth Health Council and all individuals who have assisted with the public health program.

Respectfully submitted,

THERESA M. McNEIL, R.N.,  
Div. of Public Health Nursing

### **THE YARMOUTH HEALTH COUNCIL**

The Yarmouth Health Council has had its usual busy year. However, next year poses even more of a challenge, with the new High School added to our present areas of activity.

#### **Child Health Conferences**

Conducted by Dr. Barron F. McIntire and assisted by Miss Theresa M. McNeil, these monthly conferences give free physical examinations and vaccinations to babies and pre-school children. Immunization and inoculation shots are offered at a small fee. Mrs. Carlisle V. Watson, Jr. is in charge of the program.

#### **School Physicals and Immunization Clinics**

The usual school physicals and immunization clinics were conducted by Dr. Barron F. McIntire, school physician, assisted by Miss Theresa M. McNeil, Public Health Nurse. Mrs. Leonard Robinson is in charge of the program. A

detailed report will be found in Miss McNeil's annual report.

### Dental Clinic

The clinic ran for three weeks. Dr. Harvey Desjardins of Lewiston was the dentist and Mrs. Warren Raynes, the nurse. Treatment was as follows:

Number of children	187
Silver fillings	464
Porcelain fillings	80
Temporary fillings	8
Extractions	16

Mrs. Leonard Robinson and Mrs. Francis W. Gibson, Jr. were in charge of the clinic, assisted by members of the Health Council.

### Loan Closet

The Loan Closet makes available to anyone in Yarmouth the free use of a variety of sick-room supplies and similar items. Mrs. Charles Marston is in charge.

### Geriatrics

Our new program of Geriatrics has been slow to get started. Volunteers call at the Sweetland Convalescent Home to visit some of the patients. But by next year we hope to have a much wider field of activity.

Respectfully submitted,

BETTY GIBSON,  
President

## REPORT OF THE YARMOUTH OFFICE OF CIVIL DEFENSE AND PUBLIC SAFETY

Mrs. Tinker continued as Director for several months after Town Meeting 1960, but became discouraged by the apathetic attitude of the people of the Town and resigned in favor of Mr. Everett Burnell, the new Director. She has been appointed to the County Staff.

Several exercises were held in cooperation with the other towns of the County. These were only of limited value due to the fact that in no case did the whole staff take part.

During the hurricane Donna, last fall, the headquarters was activated with communications established with County Headquarters and with the Town's mobile units throughout the storm.

A supper was given at the Grange Hall in the hope of attracting some people who might learn something of interest in the subsequent discussion. However, few came. It was a delicious supper prepared and served by the Civil Defense Emergency Feeding group assisted by a few of the ladies of the Grange.

Mrs. Whitney Lyon and Mrs. Tinker attended meetings held by the State Staff on the National Shelter Program.

Mrs. Tinker and Mr. Burnell have attended meetings at the new County Headquarters at South Windham.

Mr. Burnell has introduced changes in the membership of the Staff. The new Deputy Directors are: A. Hincks, L. Stoddard, R. Dyer. Dr. McIntyre had to resign because of the press of work and no one has yet been found to replace him.

Although the people of the Town take so little interest in the Civil Defense organization, they should at least make some effort towards preparing a fallout shelter in their

homes. Each family should fix a room in the basement (preferably) or other area away from windows where radioactive dust can be effectively excluded and stock it with food and water for two weeks, bedding, means of waste disposal, oil lights or candles, battery radio, means of recreation, etc.

The present Town Plan calls for everyone to stay under cover during an attack. Evacuation will be ordered after an attack is over and after danger of fallout is ended only if damage to the Town or lack of supplies is such that removal to a reception center is necessary for proper care.

TO BE PREPARED IS TO SURVIVE.

Respectfully submitted,

KATHERINE TINKER,  
EVERETT BURNELL,  
Directors

## REPORT OF TREE WARDEN

Six trees were removed because of infection with Dutch Elm Disease during the year, two on East Main Street and four near Gilman Road. Two were only about six inches in diameter.

Pruning, and dormant spraying programs were carried on. A summer spray was omitted. The insect population at spraying time should determine whether or not to apply summer spray this year, although possibility of another season of fall webworm abundance such as that of 1960 may make this spray desirable.

Elms along Upper Main Street seem to be responding well to fertilizing, and continuation of this feeding program down Main Street appears desirable. This retards accumulation of dead wood by promoting more vigorous growth. Pruning of dead wood from elms, thereby eliminating breeding places of the beetles that carry Dutch Elm Disease, continues to be the best known method of keeping the disease in check.

A very worthwhile project for the Garden Club or V. I. S. might be the planting of trees in certain areas of the town.

It is evident that many highly prized trees have been killed by suffocation, particularly around new homes, because of grading operations. The addition of only three or four inches of dirt over the root system of a tree can be fatal. Birches seem to be particularly sensitive. If young trees are set out, remember that they require a great deal of water all through the first summer.

Many thanks to all the townspeople for their interest and cooperation in preserving our trees.

Respectfully submitted,

FRANK A. KNIGHT,  
Tree Warden

## REPORT OF CLAM WARDEN

To the Citizens of Yarmouth:

As Clam Warden of Yarmouth, I would like to make the following report of my activities for the past year.

Upon my appointment as Clam Warden, I began daily inspection of the flats on both the island and the mainland. This resulted in numerous warnings to non-residents and one court case. I answered several calls from shore and island residents concerning the digging of clams. Their co-operation was greatly appreciated. All local commercial diggers and dealers were required to obtain town licenses.

A committee of four was appointed by the Selectmen to work with me in the study of conservation and improvement of the clam industry. Under study by this committee at this time is the possibility of closing of some areas for seeding and conservation.

The Clam Committee and I would appreciate and recommendations from local residents.

Very sincerely,

ERNEST E. GRANT,

Clam Warden

Nathan Thompson

Richard Morrill

Robert McKinnon

Robert Collins

Clam Committee

## REPORT OF PLANNING BOARD

Regular monthly meetings were held by the Planning Board to discuss future developments, study sub-divisions and to work out solutions for our immediate and future problems.

W. L. George was appointed by the Selectmen for a term of five years, and N. I. MacKay was appointed an alternate member. Frank Knight was elected to serve as chairman and Lawrence Reinsborough secretary for the 1960-61 term. Richard Boyd was elected as the Planning Board member to serve on the School Building Committee.

At the annual meeting of the Cousins and Littlejohns Island Village Corporation, they voted to dissolve the Corporation, provided the Town of Yarmouth would adopt a Building Code. At the request of the Selectmen, we were asked to present a suitable Building Code to the voters of the town for their consideration. After much study it was decided that the National Building Code, sponsored by the National Board of Fire Underwriters was best suited for Yarmouth's needs. This code stresses safety and fire prevention and should not interfere with good sound construction.

The Planning Board was requested to make a sidewalk survey and make recommendations on sidewalk construction for the town, by action taken at the 1960 annual town meeting. A sidewalk study was made and property owners in various sections of the town were interviewed for their opinions on a sidewalk program. The Board feels that a sidewalk ordinance is not necessary at this time, but recognizes the need for sidewalks in certain areas, and recommends that a sidewalk program be carried out by the Selectmen, whereby a certain amount of money be appropriated each year for new sidewalk construction. They also recommend that a sidewalk be built on Portland Street, starting at Roberts Road and continuing toward Main Street to the residence of Arthur Baston.

The Planning Board is also offering for your consideration some changes in the Zoning Code. These changes will increase lot sizes in the outlying and unsewered areas, and we hope will take care of the unsanitary conditions that arise by building houses too close together in unsewered territory, also eliminating the costly expense of extending our sewer system beyond its present boundaries.

We wish to thank the Building Inspector, Selectmen and all who have met with us during the year. Your cooperation has been appreciated.

Respectfully submitted,

FRANK KNIGHT,

Chairman

RICHARD BOYD

ARTHUR HODSDON

WILLIAM GEORGE

LAWRENCE REINSBOROUGH,

Secretary

KATHERINE TINKER,

N. I. MacKAY,

Associate Members

## **REPORT OF INSURANCE ADVISORY COMMITTEE**

In July, 1959, the Board of Selectmen appointed five resident insurance agents to form the Insurance Advisory Committee of the Town of Yarmouth.

The purpose of the committee is to recommend to the Selectmen proper insurance protection for the Town of Yarmouth and to underwrite such insurance in a manner best suited for the town.

The membership of this committee is composed of five insurance agents, each member to serve for five years. These members may be reappointed for consecutive terms at the discretion of the Board of Selectmen.

In addition to the five-man board, five other agents who qualify under the Committee By-Laws, are presently participating in the placement of the Town Insurance Coverage.

All insurance contracts are reviewed at frequent meetings and changes recommended in view of the town's changing needs and the many recent changes in forms, rates and coverages.

Commissions received from the insurance companies are divided in equal parts between the five-man committee and five smaller shares are distributed to the five other agents. Competitive bids are received on all casualty insurance based on identical information supplied to the members of the committee.

The insurance committee and selectmen feel that the town's best interests have been served and will continue to be served by the continuance of the Insurance Advisory Committee.

**INSURANCE ADVISORY COMMITTEE**  
Town of Yarmouth

## REPORT OF BUILDING INSPECTOR

To the Citizens of Yarmouth:

During the past year I have issued 124 permits for a total of \$1,673,580.00.

This is broken down as follows:

The new school buildings for \$1,031,000.00 and a new town garage for \$25,000.00. Twenty-three new residences for \$294,500.00, 1 store for \$80,000.00 and a nursing home for \$45,000.00. Twelve private garages and 7 storage buildings for \$27,100.00 and 78 permits for alterations for \$170,980.00.

This figure might seem impressive at first glance but considering the amount for public buildings it shows a drop in private construction of about 25% from last year.

Respectfully submitted,

GEO. A. LOMBARD,  
Building Inspector

**COUSINS AND LITTLEJOHNS ISLANDS  
VILLAGE CORPORATION**

Treasurer

### MERRILL MEMORIAL LIBRARY

The year 1960 has seen an increased amount of activity in the library, not only in circulation, but also in the number of people who have visited, and in the greatly increased amount of reference work being done.

Registrations are constantly being processed, so that since February 1, 1959 we have had a total of 2041. This is 1174 registered in the past year. These are roughly two-thirds adult and one-third junior. Our summer visitors use the library freely, and thus support the circulation which might otherwise drop when the schools close.

During the year several improvements have been effected, most outstanding of which are:

1. A cleaning job of walls, windows, shelves, and some books.
2. Three locked bookcases in the reference room have answered a long-standing need for a safe place to put rare or valuable books.
3. An increased allotment for books allowed us to send 147 volumes to the bindery. Gradually this policy will take care of the far too many ragged and torn books on the shelves.
4. A new shelf list catalog has alleviated the overcrowded condition of both the old shelf list and the children's room catalog. Now, all catalog drawers in the building are accessible and thus useful.
5. A hot water heater has been installed which has greatly facilitated the cleaning.

This year, 620 new books were added, 101 of which were gifts. These books may be classified as follows:

- 198 adult fiction
- 233 adult non-fiction
- 137 junior fiction
- 52 junior non-fiction

22 magazines were received, including 3 gift subscriptions. We subscribed to the Abridged Reader's Guide to Periodical Literature, and it has proved most useful. All back copies of the magazines which are indexed are stored in the basement, and are easily available for the public.

Circulation has grown steadily to the point where the librarian has time to do little else. This year's total circulation, 22,365, is an increase of 5,920 over 1959, and is broken down as follows:

4,843 adult fiction  
 1,375 adult rentals (fiction)  
 4,372 adult non-fiction  
 9,772 junior fiction  
 1,542 junior non-fiction  
 461 magazines

National Library Week and Children's Book Week were appropriately observed with new books and posters. Once again, the Junior High pupils were invited to visit the library, and were instructed in the use of reference works.

At Christmas time the library was used by the Senior Girl Scouts who presented an appropriate program for the small children of the town.

The librarian attended the Round Table Conference for librarians at Kennebunk, and she is also on the committee set up by the State Library toward accreditation of librarians in Maine. From these contacts we find that Yarmouth is served by its library in a much better manner than most towns in Maine of comparable size. We hope that the library will continue to grow and to serve this community to its utmost capacity.

To the Trustees of Merrill Memorial Library:

I herewith submit my report as Treasurer for the year ending December 31, 1960:

### Receipts

Balance on Hand, January 1, 1960		\$	232.04

Miscellaneous	228.42
	<hr/>
	\$ 6,176.12

Respectfully submitted this ninth day of January, 1961,

E. FOSTER BISHOP,  
Treasurer

### REPORT OF THE ELEMENTARY SUPERVISOR

To the Superintending School Committee and Citizens of Yarmouth:

I wish to commend the citizens of Yarmouth for their action at the special town meeting of last summer whereby provision was made for new facilities for high school and junior high school students. The addition of junior high rooms at the new plant will make it possible for at least temporary expansion of the lower and middle grades within present buildings.

The housing changes of last September which made it possible to have a minimum of two divisions of each grade in any one building have been a decided improvement. It is hoped that further changes will be possible so that all

sections of a single grade will be located at one building. The exchange of ideas and the mutual solution of problems of instruction are much more adequately handled when all teachers and pupils of a grade are at the same location.

More than five hundred new books have been added to the school libraries this year. This is a continuation of the practice of providing suitable reading and reference materials at all grade levels. The increased interest in books caused by the addition of these materials has been most gratifying.

Since we have used all available forms of the Stanford Achievement Tests in recent years, it was thought advisable to change to the new Metropolitan series. Consequently, one form of this test was administered to all grades last March. It is difficult to compare results of one test series with those of another series, however, all grades attained average scores considerably above the norms. Achievement tests will be given again late in March. The supervisor will gladly discuss any child's results with his parents as soon as the tests are corrected and analyzed. Please bear in mind that test results measure only one phase of a pupil's school progress; many other factors must be considered in evaluating the work of any child. The score attained on any test is significant only when compared to the ability of the individual pupil.

Many pupils who have experienced difficulties in reading and related activities have been fortunate to have remedial help from Mrs. Flora Harriman, the remedial teacher. She comes to us with many years of experience in teaching, and exceptional qualifications in her field. Remedial work, by its very nature, is practical only with individual students or with small groups, however, by careful organization and planning, many pupils can receive valuable help at some time during the school year.

We have occasional inquiries from parents concerning progress of pupils in different rooms within the same grade. Anyone who is familiar with instructional problems realizes that the rate of progress within any group is dependent on conditions which may exist within that particular group. We make no attempt to have all classes working on identical material on any given date; by the end of the year, however, the same major objectives will be attained by all.

In January all teachers in this school union held a workshop on the language arts. Supervisors from the State Department of Education and consultants from one of the textbook companies conducted meetings at which major objectives in the field of language, and problems relating to the same were discussed. The exchange of ideas resulting from such meetings is beneficial to all teachers.

I wish to thank the teachers, parents, school officials, and all citizens for their complete cooperation throughout the year. Without such cooperation, successful schools are impossible.

Respectfully submitted,

HAMILTON B. GRANT

## **REPORT OF THE SUPERINTENDENT OF SCHOOLS**

To the Citizens of Yarmouth:

The Yarmouth School Committee has been working closely with the High School Principal and Superintendent of Schools in planning a program for Yarmouth High School. Those who have worked on this program agree that it will be an outstanding one and be designed to meet the needs of all qualified high school students. The first objective is a strong academic program. Other courses will provide a wide range of electives. Such a program will

require good teachers and small classes. This is well within the reach of Yarmouth High School.

For a few years Yarmouth High School will be small. This will result in a high cost per pupil. School officials will make every effort to bring in qualified tuition students to help reduce the overall cost to the Town of Yarmouth.

Faith in public education has grown tremendously in the last few years. Today, those who look elsewhere are usually those with particular problems. The Yarmouth school system is small and the individual not overlooked. On the other hand it is large enough and its program comprehensive enough to challenge the brightest.

### **Elementary Schools**

The construction of the new classrooms will make it possible to close either the Central Elementary School or Portland Street School and East Main Street School. If the last two are closed then the sub-primary classes can be held at West Main Street School, all of grades one, two and three at Wm. H. Rowe School, grade four at Central Elementary, grades five and six at the Jr. High School, and grades seven and eight at the new school. This will result in one vacant room at West Main, one at Central Elementary and two at the new school. This plan and others will be fully explored before a decision is made.

The elementary program is well organized and supervised. The remedial reading program is a valuable addition and beneficial results are evident.

### **Buildings**

Major projects completed during 1960 were the painting of the Jr. High School, replacing the foundation at West Main Street School, the interior painting of the Wm. H. Rowe School and the installation of a new electrical system at the Central Elementary School. Many small

projects were completed so that the four larger schools are in good repair.

Consideration should be given to the installation of sprinkler systems at Central Elementary and the Jr. High School and the hardtop surfacing of roadways at the Wm. H. Rowe School.

### **Budget**

As the Town of Yarmouth continues to pay tuition for the remainder of the school year and prepares to open its high school in the fall, increased costs will be found in most items. As initial expenditures are high these costs will come nearer comparative tuition costs after the school is in operation a year.

The greatest increase in the budget is in teachers' salaries. This is essential as Yarmouth must be in a position to hire and retain the services of good teachers.

We thank you for your interest and cooperation in improving and expanding the Yarmouth school system.

Respectfully submitted,

JAMES B. MORRISON, JR.,  
Superintendent of Schools

**REPORT OF SCHOOL BUILDING COMMITTEE**

Since the last town meeting, bids were obtained for the construction of our new high school and junior high school, and the construction contract was awarded to Brown Construction Company. As most of you have been observing, construction is coming along and we should have a completed school ready for use and occupancy in September of this year.

A bond issue in the face amount of \$1,380,000.00 was floated. As the result of considerable nation-wide interest in our issue a coupon rate of 3.4% was obtained. A respectable premium was received in addition to the face amount which helped defray the cost of issuing the bonds and related expenses.

At the time the bonds were delivered to the successful bidder, \$912.32 was received as accrued interest to that date, which should apply toward the first interest payment that the town makes on its first coupon.

Your committee worked out an approximate work and payment schedule with the contractor so that we have been

able to invest much of our money in short term U. S. Treasury notes.

As a separate contract, a new sewer was built on South Street and extended up West Elm Street to the school site.

As an additional separate contract, the athletic field at the new school has been substantially completed.

When the school has been completed a complete financial report will be submitted.

A financial statement appears elsewhere.

## REPORT OF THE HIGH SCHOOL PRINCIPAL

This is my first annual report in the capacity of principal of Yarmouth High School. I wish to extend my thanks to parents and students for their courtesies last fall when the survey of secondary school pupils was undertaken. To ask people to consider school plans for a year ahead is an imposition but the survey appeared as the beginning point in planning for the curriculum, faculty, budget requirements, and activity program of the new school.

As explained in the letter of January 27 that was mailed to parents of secondary school youth, the organization of the high school is developing at a satisfactory rate. A program of studies, individual class schedules, and staff assignments have been prepared. Two faculty members have been elected and we are now receiving numerous inquiries and applications concerning teaching positions.

An explanation on the type of high school we anticipate is appropriate. A comprehensive high school attempts to provide 1) A good general education for all its pupils, 2) Elective programs for a considerable number to develop marketable skills, and 3) Advanced academic subjects for those of above average ability. It should be noted our program of studies contains requirements in the conventional academic areas for all students and offers four-year sequences in five subject-matter areas in the college preparatory track.

A good school needs not only the financial support of its citizens, but their constructive concern as well. Evidence of the latter is shown by reference to your responsible school officers for facts about your schools. I welcome questions and constructive thoughts from parents, students, and interested citizens as we continue to organize for next September.

Respectfully submitted,

DANIEL E. CENTER, JR.,  
Principal

## WARRANT FOR ANNUAL TOWN MEETING

To Lester E. Graham, a Constable of the Town of Yarmouth, State of Maine:

### GREETINGS:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of the Town of Yarmouth, qualified to vote in town affairs, to meet in the Masonic Hall, in said town, Friday, the 17th day of March, A.D., 1961, at 10:00 A.M. to act on the following articles, to wit:

Article 1. To elect a moderator to preside over said meeting.

Art. 2. To ballot on all necessary town officers for the ensuing year, except moderator.

Note: The polls will be open for this purpose from 10:00 A.M. to 7:00 P.M., and the officers will be elected on a single ballot provided by the town. At 7:00 P.M. the meeting will adjourn until 7:30 P.M. Business will be resumed at North Yarmouth Academy Auditorium.

Art. 3. To hear and act upon the report of the selectmen, assessors, overseers of the poor, treasurer, superintendent of schools, chief of fire department, also the report of any other officer or committee.

Art. 4. To see what sum of money the town will raise and appropriate for general government: (1) Selectmen, (2) Assessors, (3) Overseers of the Poor, (4) Clerk, Collector, Accountant, (5) Treasurer, (6) Attorney, (7) Elections, (8) Departmental Expense.

Art. 5. To see what sum of money the town will raise and appropriate for protection of persons and property: (1) Police Department, (a) salary, (b) expense; (2) Fire Department, (a) salaries, (b) expense, (c) repairs and maintenance, (d) equipment; (3) Fire inspection, (4) other

inspection, (5) insurance on town property, (6) workmen's compensation insurance, (7) civil defense, (a) expense, (b) equipment and supplies.

Art. 6. To see what sum of money the town will raise and appropriate for highways; (1) maintenance of town highways, (2) tarvia, (3) sidewalks, (4) snow removal and sanding, (5) state aid construction.

Art. 7. To see what sum of money shall be applied to the highways and maintenance accounts from excise tax returns.

Art. 8. To see what sum of money the town will raise and appropriate for health and sanitation: (1) health, (a) salary, (b) expense; (2) vital statistics, (3) State Bureau of Health, Sanitation, (1) sewer maintenance, (2) garbage collection, (3) town dump, (a) maintenance.

Art. 9. To see what sum of money the town will vote to raise and appropriate for water service.

Art. 10. To see what sum of money the town will vote to raise and appropriate for street lighting.

Art. 11. To see what sum of money the town will raise and appropriate for welfare: (1) Local Welfare, (2) Dependent Children.

Art. 12. To see what sum of money the town will raise and appropriate to help combat white pine blister rust.

Art. 13. To see what sum of money the town will vote to raise and appropriate for Support of Schools: Administration, Instruction, Attendance and Health Services, Pupil Transportation Services, Operation of Plant, Maintenance of Plant, Fixed Charges, Food Services, Outgoing Transfer Accounts.

Art. 14. To see what sum of money the town will raise and appropriate for an athletic and recreational program in Yarmouth.

Art. 15. To see if the Town will vote to authorize its Superintending School Committee to issue vouchers for the payment of tuition for high school pupils attending North Yarmouth Academy at a yearly cost not to exceed \$420. per pupil, or take any action thereon.

Art. 16. To see what sum of money the town will raise and appropriate for the maintenance of the Merrill Memorial Library.

Art. 17. To see what sum of money the town will raise and appropriate for the corporate needs of the Cousins and Littlejohns Island Village Corp. for the year 1961. The purposes for which this money will be spent, including the maintenance of roads and landings, garbage and rubbish collection and disposal, and desirable improvements to increase the comfort and attractiveness of the islands for the inhabitants, said money to be paid to the treasurer of the Cousins and Littlejohns Islands Village Corporation.

Art. 18. To see what sum of money the town will raise and appropriate for unclassified accounts: (1) Memorial Day, (2) Cemeteries, (a) care and maintenance, (3) Tree Spraying, (4) Pruning and Removing Trees, (5) Skating Rink, (a) lighting and plowing, etc., (b) drainage improvements, (6) Planning Board, (7) Advertising Resources, (8) Baseball Field Maintenance.

Art. 19. To see if the town will acquire by purchase or condemnation, the land standing in the name of Mary Albano located on Portland Street and identified on assessor's maps as Lot U-4-18.

Art. 20. To see what sum of money the town will raise and appropriate for interest on loans: (1) long term debt, (2) short term debt.

Art. 21. To see what sum of money the town will raise and appropriate for debt.

Art. 22. To see if the town will raise and appropriate the sum of \$100.00 to be paid to Charles E. Greely, Honorary Fire Chief.

Art. 23. To see if the town will vote to authorize the selectmen, on behalf of the town, to give assignments of the mortgages created by the tax lien certificates, also to sell and dispose of any real estate acquired by the town for non-payment of taxes or otherwise, on such terms as they deem advisable, and to execute quit-claim deeds for such property.

Art. 24. To see if the town will fix a date when taxes shall be due and payable and see if the town shall charge interest on taxes unpaid, after such date.

Art. 25. To see if the town will vote to authorize the selectmen to appoint a committee consisting of seven members to investigate and report the various methods of financing and administration of the proposed reconstruction of the Yarmouth Sewer System. This committee to make its report at a special town meeting or the next regular town meeting in 1962.

Art. 26. To see what action the town will take on a name for the new Cousins Island Bridge.

Art. 27. To see what sum of money the town will raise and appropriate to repair the main road to the Northeast end of Cousins Island.

Art. 28. To see if the town will vote to accept, as a gift, from the Yarmouth Realty Co., a parcel of land located on the east side of Royal River. This location being at the end of the proposed access road to be built by the State from Bay View Street to Royal River, parallel to Interstate Rt. 95. This parcel of land is to be used for a public town landing.

Art. 29. To see if the town will assume the responsibility of maintenance of the proposed access road from Bay View Street to the Town Landing on the Royal River after its completion by the State Highway Department.

Art. 30. To see if the town will appropriate the sum of \$250. for the improvement of the Town Landing Area at the end of the proposed access road from Bay View Street to Royal River.

Art. 31. To see if the town will vote to adopt as the Building Code of the Town of Yarmouth the Abbreviated 1955 Edition (as amended in 1958) of the "National Building Code" recommended by the National Board of Fire Underwriters".

Art. 32. To see what sum the town will raise and appropriate for the purpose of having professional appraisers continue appraisal of property values in the town for the year 1961-62.

Art. 33. To see what sum the town will raise and appropriate for the purpose of having professional engineers continue mapping the properties of the town.

Art. 34. To see if the town will vote to amend the Zoning Ordinance of the Town of Yarmouth as follows:

Pages 2 and 3, Article V, Sections 3 and 4 shall read as follows:

"3. Lot size. The minimum lot size shall be 30,000 square feet for any use. The minimum lot width at the point where the main building is closest to the street shall be not less than 150'.

"4. Minimum setbacks:

	Street	Sides and Rear
Main Building	40'	20'
Detached accessory buildings	30'	20'

Pages 3 and 4, Article VI, Section 3 shall read as follows:

"3. Lot size. The minimum lot sizes shall be:

	Sewered	Unsewered
For any dwelling	8,000 sq. ft.	20,000 sq. ft.
For institution, daytime only	12,000 sq. ft.	20,000 sq. ft.

For institution, nursing home, etc.,  
 day and night                      12,000 sq. ft.    20,000 sq. ft.  
    plus 150 sq. ft.  
    per occupant over 10.

"The minimum lot width at the point where the main building is closest to the street shall be not less than 80 ft."

Article VI, Section 5 shall read as follows:

"5. Parking:

Off-street parking space for two cars shall be provided for each dwelling unit. See also Article XI, Section 14."

Pages 4 and 5, Article VII, Sections 3, 4 and 5 shall read as follows:

"3. Lot sizes:

The minimum lot sizes shall be:

For all dwellings	30,000 square feet per dwelling unit
For all other buildings and uses	Ten times the area covered by buildings

"The minimum lot width at the point where the main building is closest to the street shall be not less than 150'.

"4. Minimum setbacks:

		Sides and Rear
	Street (right of way)	
Dwellings	40' from existing roads	25'
	25' from new roads	25'
Detached		
accessory buildings	40' from existing roads	10'
	25' from new roads	'
All other buildings	40' from existing roads	50'
	25' from new roads	

"5. Parking:

Off-street parking space for two cars shall be provided for each dwelling unit. See also Article XI, Section 14."

Page 5 and Zoning Map.

The title of Article VIII shall read:

"Article VIII. "R-I" Island Residence District"

The "R-S" zone on the mainland shall be omitted and the area now contained therein shall become part of the adjacent "R-A" zone. The "R-I" zone shall apply only to the present "R-S" zone on Cousins and Littlejohns Islands.

Pages 6 and 7, Article IX, Section 3, subparagraph 2 in each of paragraphs A, B, C and D shall become sub-paragraph 3; and the following statement shall be inserted in paragraphs A, B, C and D:

"2. In the opinion of the Board of Appeals it will not create an undue hazard to pedestrian and vehicular traffic;"

Art. 35. To see how much money the town will raise and appropriate for the construction of a sidewalk on Portland Street.

Art. 36. To see if the Town of Yarmouth will vote to raise and pay the sum of \$300. to the Area Development Council, it being Yarmouth's dues for the year 1961.

Art. 37. To see if the town will authorize the selectmen to trade the 1958 International dump truck toward the purchase of a new dump truck.

Art. 38. To see what sum of money the town will raise for tools and equipment for the Municipal Garage.

Art. 39. To see what action the town will take to sponsor a Celebration and to raise money for the same.

Art. 40. To see if the town will accept Greenleaf Street as a public road if and when the selectmen and the road commissioner agree that it meets the specifications as required by the Town Laws.

Art. 41. To see if the town will accept Shoreview Drive on Cousins Island as a public road if and when the selectmen and road commissioner agree that it meets the specifications as required by the Town Laws.

Art. 42. To see if the town will accept Collins Road as a public road if and when the selectmen and road commissioner agree that it meets the specifications as required by the Town Laws.

Art. 43. To see what action the town will take in regard to accepting as public roads that part of Harvard Street which extends from Nowell Avenue to Kellogg Avenue, that part of Kellogg Avenue from Harvard Street to Crescent Street, and that part of Crescent Street which extends from Kellogg Avenue to the top of the hill, and the spur leading from Harvard Street to the "Wood Road" so-called, all of said roads and avenues being on Littlejohns Island and described in a plan of lots recorded in the Cumberland County Registry of Deeds Plan Book 7, page 53.

Art. 44. To see what action the town will take in the division of expense between the town and the abutters on new sidewalk construction. This not to affect any sidewalk programs voted in this town meeting.

Art. 45. To see what action the town will take to improve the road and parking area at the Rowe School.

Art. 46. To see what action the town will take to rebuild South Street from Cumberland Street to West Elm Street.

Art. 47. To see what sum of money the town will vote to raise and appropriate for the purchase of one or two new school buses and authorize the Superintending School Committee to make such purchase.

Art. 48. To see if the town will raise and appropriate the sum of \$3,000. for a Public Health Nurse, in co-operation with the State Department of Health and Welfare.

Art. 49. To see if the town will vote to accept a hydrant on Bay View Street opposite the residence of Leonard Robinson and raise and appropriate the sum of \$75.00 for same.

Art. 50. To see if the town will vote to install two street lights on Lafayette Street, one on each side of the Route 95 overpass.

Art. 51. To see what sum of money the town will raise and appropriate to install a street light on Pole No. 11 on Sunset Point Road.

Art. 52. To see what action the town will take as to the installation of a street light on Bridge Street on Cousins Island on CMP pole #82-8.

Art. 53. To see what action the town will take as to the installation of a street light on Cousins Street on Cousins Island on CMP pole #401-5-28.

Art. 54. To see what sum of money the town will raise and appropriate to install a street light on Pole #7 on Smith Street Extension opposite the residence of Robert MacKinnon.

Art. 55. To act on Article #33 as printed in the 1959 town report as follows: "To see what sum of money the town will vote to raise and appropriate for the purchase and installation of sprinkler systems at the Central Elementary and or the Junior High School." This article was tabled until the next annual town meeting.

Art. 56. To see what sum of money the town will raise and appropriate to install a street light on pole #5 on Rogers Road. Near its intersection with Greenleaf Road.

Art. 57. To see what sum of money the town will raise and appropriate to install a hydrant on Rogers Road south of its intersection with Greenleaf Road and within 500 feet of this intersection.

Art. 58. To see what action the town will take to change the present number required for a quorum at a town meeting to 125 present and voting.

Other articles to follow. Received too late to be included in this printing.

Given under our hands the 23rd day of February A.D. 1961.

ROBERT R. MORRILL,  
J. WARREN RAYNES,  
BUEL J. FERGUSON,  
Selectmen of Yarmouth
